

Hennepin County Children’s Mental Health Collaborative (CMHC)
Summary of Ad Hoc Committees for Governance Committee Participation

July 15, 2020

Committee Focus	Description	Number of People Needed	Duration
<i>Hennepin County Children’s Mental Health Dashboard</i> (Cheryl)	“I’m hoping to recruit a few collaborative members who would be willing to work with me on a dashboard to capture key children’s mental health data for the county. The goal is to create a document that can be regularly updated, and that helps guide our system of care work. I’d like to identify a few volunteers who would be willing to meet virtually a few times to review draft versions of the toolkit, help strengthen the content and presentation, discuss recommendations for how the collaborative could use the dashboard to inform its work. In terms of time, if people could meet a few times in July and August that would be helpful. There may be some work that continues into the fall, but we may want to bring in different or additional stakeholders at that point.”	2-3	July & August
<i>CMHC Statement on the Minneapolis Uprising and Beyond</i> (Laura)	Last month, Governance Committee voted for the CMHC to develop & release a statement related to the Minneapolis Uprising. BIPOC providers gathered and had an initial discussion and shared valuable insight in early July; now it’s time to put together a statement. This group will work with Laura to develop a draft statement for review by BIPOC provider group & Governance Committee.	2-3	July & early August
<i>COVID-19 Relief Fund Review Committees</i> (Etonde)	Need people to help establish review criteria Need several people to help review applications	2-3 5-7	Immediate need through the end of July
