

# Hennepin County Children's Mental Health Collaborative (CMHC)

## Governance Committee Meeting

Wednesday, March 17, 2021

Committee/Coordinator Updates

### Parent Catalyst Leadership Group

PCLG's "Let's Talk About It" workshop series practically went viral last month. Participants were very interested in learning more about suicide prevention, so we have invited back Canvas Health, this time to do a one-hour **Question, Persuade, Refer (QPR)** training for families: **Tuesday, May 18<sup>th</sup> at 7pm.**

PCLG is also looking to recruit new parent members. If you have potential candidates in mind, please contact Liz, Karen, or Margaret.

### School-Based Mental Health

*None submitted in time for sending of meeting materials.*

### Scholarship Committee

To be added by Laura.

### SoC Subcommittees

#### CMH Dashboard

The dashboard group has compiled most of the information that we want to include in the initial dashboard. We met this week to talk about a recommended strategy to begin sharing data with the full Collaborative and community, with a focus on thinking about how we can use the information to guide our work.

#### Engagement

The Engagement Subcommittee will meet Wednesday, April 21<sup>st</sup> before the Governance Committee meeting. During this meeting we will determine stakeholders/groups we are seeking to engage, existing connections/gaps, and (time permitting) planning out the general format of engagement sessions.

#### Governance/Structure

To be added by Laura.

#### Journey Mapping

The Journey Mapping group has met a few times and have been focused on figuring out our overall project scope and focus. We are close to having a recommended direction for the project, which we will be reviewing with the executive team shortly. We're excited to be narrowing down a focus that will be meaningful, centered around family voice, and useful in guiding service and system reform.

#### Recruitment

The Recruitment Subcommittee has met twice in the past month. The following are the major themes from our previous discussions:

1. A recruitment strategy needs to take into consideration the current CMHC mission, culture, and operational structure, as well as the future direction of the CMHC.
2. The CMHC is in the process of utilizing the system of care values and principles to guide our work.
3. The core value of system of care is that parent and youth voice are at the center of all of our efforts.
4. Our current operational structure and culture does not align with the value of parent and youth driven.

*The recruitment committee will be requesting an opportunity to meet with the Executive Committee to share our observations and make recommendations for moving forward. We believe in order for any recruitment strategy to be effective in getting the necessary voices to the table to do systems of care work we need the leadership of the CMHC to consider changes in the current operational structure and culture. This would be the focus of our discussion with the Executive Committee.*

***Service Continuum*** (update submitted 4/14/21)

*The Service Continuum subcommittee met earlier this month and accomplished the following:*

- *Began to identify outcomes for Service Continuum Map as well as the scope of the Service Continuum Map*
- *Looked at the Statewide Children's Mental Health Continuum from 2016 which mapped out mental health services across a Prevention to Resident/Inpatient continuum*

*They will meet on April 16<sup>th</sup> with Hennepin County representatives to discuss and understand the range of mental health services available.*
